24	TEACHERS' RETIREMENT FUND			
25				
26				
27				
28	The State Teachers' Retirement System is composed of approximately 224,721 active accounts. Approximately 21,824 members will receive retirement benefits during 1959-60. The present system became operative July 1, 1944.			
29	3 major funds constitute the State Teachers' Retirement Fund. They are the Teachers' Permanent Fund, the Retirement Annuity Fund, and the Annuity Deposit Fund. Chapter 1583, Statutes of 1957, authorized the 3 funds to be combined for administrative purposes only. All other aspects of each fund are carried on as before.			
30	The Teachers' Permanent Fund receives its revenue from members' contributions, contributions from the school district, interest from invested reserves, and yearly appropriations by the State from the General Fund. Retirement benefits from the fund are currently \$600 per year to the person who is credited with 30 or more years of service, and who retires at age 60. A pro rata amount of that amount is paid for less than 30 years of service, and all benefits from this fund are discounted or improved actuarially if the member retires at an age less than 60 years or over.			
31	The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies are required to pay contributions equal to 3 percent of the certificated payroll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the 3 highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.			
32	The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes of 1956, has reopened this fund for additional member contributions. Members who have contributed to this fund receive an annuity at the time of their retirement but the benefit is based solely on the value of the members' accumulated contributions.

17	GENERAL ANALYSIS				
18					
19	The Department of Employment administers the state em-				
20	ployment service and unemployment insurance and disability				
21	insurance systems. The department also performs certain func-				
22	tions in connection with 34 federal programs; the Veterans				
23	Readjustment Assistance Act of 1952 which provides for unem-				
24	ployment allowances for veterans of the Korean conflict, the				
25	Federal Unemployment Compensation Program under Title XV				
26	of the Social Security Act which provides unemployment				
27	insurance benefits for unemployed federal workers, the Service-				
28	men's Unemployment Compensation Act of 1958 which pro-				
29	vides unemployment insurance benefits for unemployed ex-				
30	servicemen and the Temporary Unemployment Compensation				
31	Act of 1958 which provides for extension of benefits to claim-				
32	ants who have exhausted their rights under the other regular				
33	program. The latter program is effective only for the period				
34	July 1958-April 1959.				
35	The Unemployment Insurance Code provides for payment				
36	of disability and hospital benefits in 2 ways: either by the				
37	State from the Unemployment Compensation Disability Fund,				
38	financed by a 1 percent tax on wages paid by workers in				
39	employment subject to provisions of the California Unemploy-				
40	ment Insurance Code, or by voluntary plans as provided by				
41	the code.				
42	The unemployment insurance program provides for payment				
43	of benefits to workers who are unemployed through no fault

1957-58 Fiscal Year

During the 1957-58 Fiscal Year, the number of disability claims filed increased over the two previous fiscal years. The department continued to improve performance through emphasis on administrative and procedural improvements.

Unemployment insurance benefit workloads increased sharply over the low level year of 1956-57. This increase started with the beginning of the recession in the fall of 1957 and continued throughout the fiscal year.

a Federal funds for unemployment administration are deposited in the State Unemployment Administration Fund and actual cash disbursement is made as a revolving fund.

GENERAL ANALYSIS—Continued

1957-58 Fiscal Year—Continued

The employment service continued to expand its services to employers and work applicant groups. This included increased service to groups requiring special assistance.

1958-59 Fiscal Year

For the 1958-59 Fiscal Year, it is anticipated that the principal workload item of State Plan disability claims will be 12 percent higher than actual experience for 1957-58 Fiscal Year. The increased amount requested for Disability Insurance Administration in the current and the budget year over the actual year is attributable to the increase in workloads. The unit time requirements for each workload unit is relatively stable over the 3-year period.

Although a general improvement in economic conditions is predicted for the second half of the 1958-59 Fiscal Year, it is estimated that tax collecting and unemployment insurance benefit claim filing activities will be at a slightly higher level for the 1958-59 Fiscal Year than for the 1957-58 Fiscal Year. The increase in staff needs estimated for Unemployment Insurance-Employment Security Administration for 1958-59 Fiscal Year relates to these increased activities as well as the addition of requirements for administration of the Federal Temporary Unemployment Compensation Program during the period July, 1958, to April, 1959.

1959-60 Fiscal Year

For the 1959-60 Fiscal Year, based on current operating trends, it is anticipated that the principal workload item of State Plan disability claims will increase 7 percent over the number of claims that will be received in the 1958-59 Fiscal Year.

The statewide review of clerical operations that is in process in the current 1958-59 Fiscal Year will be continued in 1959-60 in order to assure maximum use of modern business methods and machines to increase efficiency.

The 1959-60 Fiscal Year Unemployment Insurance-Employment Service budget is based on an estimated unemployment insurance claim-filing workload which is considerably less than the estimated workload for the current 1958-59 Fiscal Year. The workload estimate is based on substantial improvement of the economy of the State. As this agency operates on a performance budgeting basis the lower workload estimate results in a decrease in estimated requirements for Unemployment Insurance benefit claims for the 1959-60 Fiscal Year. In addition there will be no requirements for administration of the Federal Temporary Unemployment Compensation Program which will expire in April, 1959.

The proposal for support from the Department of Employment Contingent Fund includes an item in the amount of \$206,288 for payment of the costs of Department of Finance post audits of Unemployment Insurance-Employment Security Administration funds, \$15,680 of this amount is for the 1959-60 budget year and \$190,608 for the prior Fiscal Years 1947-48 through 1958-59. After extensive correspondence with the agency over a period of years the Bureau of Employment Security made a final determination that postaudits conducted by their auditing staff adequately protect administrative funds and that postaudits by the Department of Finance are not necessary for the purposes of those clauses of the federal legislation which govern the expenditure of federal grants. The bureau has now formally requested that the funds expended for this purpose be replaced.

OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR

The Department of Employment is administered by the Director of Employment appointed by the Governor subject to the approval of the Senate. He is responsible for all phases of the administration of the California Unemployment Insurance Code except for certain quasi-judicial functions which are the responsibilities of the Appeals Board.

The deputy director is appointed by the Governor subject to the approval of the Senate. He assists the director in the administration of the code and acts for the director in his absence. He is also Chief of the Division of Accounts and Tax Collections.

DIVISION OF APPEALS							
Objectives				Program and Performance			
<p>The 3 members of the California Unemployment Insurance Appeals Board constitute the final administrative body, vested by law with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and disability benefit determinations, and employer tax liability. The Appeals Board also hears appeals from rules and regulations established by the director.</p>				<p>The Appeals Board formulates its own administrative policies and through its secretary and chief referee administers affairs of the entire division. Area referee offices have been established in San Francisco, Sacramento, and Los Angeles. Three referees staffing these offices have the primary responsibility hearing and deciding appeals from determinations relating to unemployment insurance benefits, disability benefits, overpayments and disputed employer tax liability matters.</p>

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS							
Objectives							
<p>The Chief, Division of Public Employment Offices and Benefit Payments, directs the activities of this division. The responsibility of this division is the administration and operation of the Unemployment Insurance and Employment Service Programs.</p>				<p>The Occupational Analysis Field Center is 1 of 5 in the United States and serves as the point of analysis and processing of job analysis data gathered by state employment security agencies in 11 western states.</p>			
Program and Performance							
<p>The program of the division is carried on at 3 levels, the central office, the area offices and the local offices.</p>				<p>The coastal, interior, and southern area offices, under supervision of the chief of field operations, direct the operation of the local offices. These area offices assist in determining program needs and in formulating plans to meet these needs.</p>			
<p>At the central office level there are 7 sections, Office of Chief of Division, Management Inspection, Employment Service Technical, Benefit Payments Technical, Interstate, Farm Placement and the Occupational Analysis Field Center.</p>				<p>The local offices carry out the established employment security program in their communities, consisting of the employment service functions and benefit payment functions.</p>			
<p>The Management Inspection Section makes special studies to determine conformity of local offices with prescribed policies, standards and methods of local office operations. The technical sections provide program leadership and make policy determinations. The Interstate Section processes interstate claims for payment. The Farm Placement Section develops and evaluates programs for the recruitment and placement of farm workers and supervises farm placement offices and operations throughout the State.</p>				<p>A decrease of 2 positions is anticipated in the Benefit Payments Technical Section as a result of the scheduled termination of the Federal Temporary Unemployment Compensation Program in April, 1959.</p>			
<p>Decreases of 27 and 475 positions are anticipated in the Interstate Unit and local offices, respectively due to the estimated decrease in unemployment insurance benefit workloads and termination of the Federal Temporary Unemployment Compensation Program in April, 1959.</p>

DIVISION OF ACCOUNTS AND TAX COLLECTIONS

Objectives

The Division of Accounts and Tax Collections is responsible for audit of employers' accounts.

Program and Performance

The deputy director is the chief of this division. The division consists of a central office auditing staff and field auditing section. No increase in personnel is proposed.

The central office staff assesses, adjusts, and makes refunds on employer accounts, issues opinions on questions of coverage, takes collection action on unpaid accounts, and makes assignments for necessary field action.

The Field Auditing Section makes audits and investigations of employer accounts; makes collections of contributions due; investigates wage credit disputes; and registers and assists employers in complying with the code.

OFFICE OF ASSISTANT DIRECTOR-COMPTROLLER

Objectives

The assistant director-comptroller advises the director and deputy director on fiscal matters and supervises the Standards and Methods Section, Tabulating Section, Accounting Section, Administrative Services, and the Internal Auditors.

Program and Performance

The Standards and Methods Section is responsible for a continuous review of the department's organization and the coordination of programs, policies, and procedures. It evaluates present and future efficiency and effectiveness of existing policies, methods, and organizations. It endeavors to be informed of all problems which require planning, to develop adequate solutions, and to follow up results of planning activities. It also maintains the central archives and policy files of the department.

The Accounting Section processes employer status records and contribution and earnings reports; receives and deposits remittances; maintains employer reporting and accounting controls, and reserve accounts records; reconciles the bank accounts of the various benefit programs; maintains employer and wage earner report files; recomputes insurance awards; adjusts insurance account balances; maintains fraud and overpayment records; and maintains accounts and processes documents relating to unemployment insurance and disability insurance overpayments.

The Tabulating Section establishes and maintains claim and

wage record files; records and computes benefit awards; record employee and employer contributions; prepares related statistical reports; and assists in relevant fiscal operations.

The program of the Administrative Services Section is carried on at 2 levels, the Central Office and the Area Business Management Offices.

In the Central Office the chief directs the activities of the section. The Training Unit plans and directs the department's training program. The Personnel Section performs the personnel management work of the department. The Property Unit coordinates the negotiations for leasing of premises and plans and develops the departmental building program. The Fiscal Section-Accounting Group maintains accounting records and performs other fiscal functions. The Office Services Group of the Fiscal Section provides the departmental services of typing, dictating machine transcription, duplicating, teletype and mail control.

The Area Business Management Units in Los Angeles and San Francisco perform field work in the fiscal, personnel, property and other administrative services functions and maintain rosters of field office employees.

Decreases of 31 and 33 positions are anticipated in the Accounting and Tabulating Sections, respectively, due to the estimated decrease in unemployment insurance benefit workload and the termination of the Federal Temporary Unemployment Compensation Program on March 31, 1959.

DIVISION OF DISABILITY AND HOSPITAL BENEFITS

Objectives

The Division of Disability and Hospital Benefits is responsible for the administration of the disability insurance program.

Program and Performance

The central office operation develops plans, standards, and procedures for, and evaluates all disability insurance claim operations (including hospital confinement benefits); reviews state first claims for disability insurance to determine whether they meet minimum standards; reviews voluntary plan claim reports to determine whether they meet minimum standards; gathers and prepares data to be submitted with voluntary plan appeals; handles correspondence regarding state and voluntary plan inquiries on benefits; reviews state disqualifications and appeals; reviews voluntary disability insurance plans and makes recommendations for approval.

The Claim Control Section processes state and voluntary plan

claim reports; supervises voluntary plan activities for conformity with requirements of the California Unemployment Insurance Code; and maintains voluntary plan files.

The 18 disability district offices within their assigned geographical districts determine eligibility of claimants for disability insurance; issue disability payments to eligible claimants; conduct correspondence with employers, claimants, doctors, institutions, and other state or governmental agencies; and maintain claimant disability insurance records. 37 proposed new positions are included, based on an estimated workload increase. These additional positions will be assigned to the district offices according to the workload requirements.

The medical director formulates medical policies, programs, and standards for the disability insurance program of the department. Offices are maintained in Sacramento, Los Angeles, and San Francisco.

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS AND CITRUS FRUIT FAIRS

GENERAL ANALYSIS

There are 79 fairs or expositions which are operated by state agencies or with financial assistance from the State. They are authorized for the purpose of holding fairs, expositions and exhibitions of all the industries and industrial enterprises, resources, and products in the State, with a view of improving, exploiting, encouraging and stimulating this production.

The California State Fair and Exposition, a state institution within the Department of Finance, conducts the California State Fair in Sacramento. The Sixth District Agricultural Association maintains a permanent exhibit building in Los Angeles. 51 other district agricultural associations, which are state institutions, conduct district fairs; 24 counties conduct county fairs, and 2 nonprofit corporations conduct citrus fairs. All of the agencies conducting these fairs, except the Los Angeles County Fair and the 2 citrus fairs, are required to submit budgets to the Department of Finance for approval.

Budgets of the California State Fair and Exposition and the Sixth District Agricultural Association are not included in this section. The complete budgets of these 2 agencies are included in the State Operations Section and the Capital Outlay Section of the budget. The budget for the California State Fair and Exposition will be found on pages 285 to 289 and on pages 732 to 733. The budget of the Sixth District Agricultural Association will be found on pages 289 to 292 and on pages 733 to 734.

The expenditure programs of 75 district and county agricultural fairs and 2 citrus fairs are included in this section of the budget. On the following pages are shown summaries of budgets for 51 district fairs, 24 county fairs, and 2 citrus fairs in California. Each budget contains a statement of revenues, expenditures, surplus, and a brief history and program of the fair.

The Department of Finance, through the Fairs and Expositions Division, supervises the operations of 74 of the 75 district and county fairs in California which receive financial assistance from the State. The Los Angeles County Fair and the 2 citrus fairs are not under supervision of the Fairs and Expositions Division.

All-year use of fairgrounds facilities has increased greatly over the past few years as buildings and grounds have been steadily improved. Interim uses include community gatherings, recreational activities, conventions, livestock sales, 4-H and Future Farmers meetings, sports events, school sessions, farm labor camps, and relief headquarters in times of disaster.

Full-time managers are employed by both district and county fairs. Other permanent employees of district agricultural associations have civil service status.

In an effort to improve the fair program the Fairs and Expositions Division co-operates in the conduct of schools of instruction for fair managers and directors; sponsors an annual conference for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors' groups to revise rules and regulations and the master premium list which details amounts that can be paid for the many classes and types of exhibits. These functions and activities are in addition to the fiscal and technical supervision by the Department of Finance over these 74 agencies.

The law does not restrict the area to be served by a district, county, or citrus fair. Some of the fairs attract and encourage exhibitors from all over the State, while the exhibitors at other fairs are limited to the district or county in which the fair is conducted or to such district or county and contiguous areas.

In the majority of cases fair operations are accounted on a calendar year basis. The fairs operating on other than a calendar year are indicated in the detailed budgets.

District Agricultural Associations

Regional agricultural societies first received financial assistance from the State in 1861. After the adoption of the new Constitution of 1879, the regional agricultural societies were succeeded by district agricultural associations authorized by the Legislature of 1880 as state agencies. Section 80 of the Agricultural Code fixes the boundaries of 52 agricultural districts. There are 51 districts organized and holding fairs in addition to the Sixth District which maintains a permanent exhibit in Los Angeles.

Each of the district agricultural associations is a state institution administered by a board of 8 directors appointed by the Governor. The organization and operation of district agricultural associations are governed by Sections 80 to 93 of the Agricultural Code. District agricultural associations are subject to the laws and administrative regulations which apply to state agencies generally and to specific rules and regulations which apply only to district agricultural associations or to district and county fairs. District fairs are conducted under budgets approved by the Department of Finance and practically every action taken by an agricultural association requires departmental approval.

The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

Revenues received by the Sixth District Agricultural Association, Los Angeles, are deposited in a special fund in the State Treasury and this association operates out of this special fund under appropriations by the Legislature. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The 1-A District Agricultural Association, San Francisco, receives an annual appropriation of \$250,000 and the 48th District Agricultural Association, Los Angeles, receives an annual appropriation of \$125,000 under the provisions of Section 19622 of the Business and Professions Code. Neither of these associations receives an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 49 district agricultural associations receive annual allocations on the basis of premiums paid at their respective fairs.

County Agricultural Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Government Code Section 25906 and receive allocations under the provisions of Section 92 of the Agricultural Code. In a few cases fairs are conducted directly by the county. County fairs, except Los Angeles County Fair, conduct their operations under budgets approved by the Department of Finance. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

The Los Angeles County Fair is conducted under the provisions of Section 25906 of the Government Code. The County of Los Angeles receives an annual appropriation of \$250,000 for support of the fair under the provisions of Section 19622 of the Business and Professions Code. The county does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 23 counties which receive funds for the encouragement of agricultural fairs receive allocations under the provisions of Section 92 of the Agricultural Code.

Citrus Fruit Fairs

Citrus fruit fairs receive an allocation under the provisions of Section 19624(a) of the Business and Professions Code.

The National Orange Show, a nonprofit corporation, receives an annual allocation of \$150,000 from the 5 percent of the first balance of the Fair and Exposition Fund which is appropriate for the encouragement of citrus fairs under the provisions of Section 19624(a) of the Business and Professions Code.

The Cloverdale Citrus Fair, a nonprofit corporation, receives an annual allocation of \$30,000 from that portion of the percent of the first balance of the Fair and Exposition Fund which exceeds the amount which may be allocated to the National Orange Show under the provisions of Section 19624(a) of the Business and Professions Code.

The National Orange Show and the Cloverdale Citrus Fair are the only citrus fruit fairs which have qualified to receive allocations under the definition of citrus fruit fairs as contained in Section 94 of the Agricultural Code and Section 19624 of the Business and Professions Code.

Section 94.5 of the Agricultural Code provides that upon dissolution of a citrus fair all property of the fair or association after payment of outstanding debts shall escheat to the State. The citrus fairs do not receive allocations under the provisions of Section 92 of the Agricultural Code.

Allocation of State Funds

Sections 19622, 19624, and 19626(c) of the Business and Professions Code provide that part of the revenue received from pari-mutuel wagering on horse racing shall be used for the support and encouragement of and capital outlay at district and county agricultural fairs and citrus fruit fairs. A statement showing the distribution of the Fair and Exposition Fund appears in the Capital Outlay Section of the budget on page 73.

Section 19622 makes annual appropriations to district and county agricultural fairs as follows:

Support of the Los Angeles County Fair	\$250,000
Support of 1-A District Agricultural Association	250,000
Support of 48th District Agricultural Association	125,000

Section 19624 provides that 5 percent of the balance remaining after deducting certain appropriations shall, subject

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS AND CITRUS FRUIT FAIRS—Continued

GENERAL ANALYSIS—Continued

Allocation of State Funds—Continued

statutory limitations, be paid to citrus fruit fairs. This section also provides that 40 percent of the balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Section 19626(c) makes the remaining balance of the Fair and Exposition Fund, after providing for the appropriations made in the Business and Professions Code and other laws, available for capital outlay purposes at state, county, district and citrus fruit fairs. These funds are allocated by the Director of Finance upon approval of the State Public Works Board.

Apportionments under the provisions of Section 92 of the Agricultural Code are forwarded to each fair in January of the year following the fair on which such allocations are based. Consequently, they are not available for payment of obligations during the calendar year in which they are earned. Provision is made for advances from state funds of amounts necessary to finance operations during the year, limited to the amount the fair will be entitled to in the subsequent apportionment. State fund operating balances of less than \$65,000 at the end of the year will necessitate advances from future apportionments.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code are allocated on the basis of premiums paid at the annual fairs conducted by the respective districts and counties subject to 2 limitations. The amount of premiums paid by a fair which may be used as a basis of allocating funds to that fair is limited under the provisions of Section 92 of the Agricultural Code. This limitation on each individual district or county increases each year that a fair is held. The maximum amount which may be allocated to any 1 fair in any 1 year is limited to \$65,000 under the provisions of Section 19624 of the Business and Professions Code.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Fairs and Exposition Division before the premium lists are printed. The proposed premium lists are reviewed to determine if they comply with the master premium list and to determine the suitability of the proposed offerings for the individual fair.

Fairs Classification Committee

Under the provisions of Sections 92.6, 92.7 and 92.8 of the Agricultural Code, the Fairs Classification Committee was established as a study committee to classify the 72 district agricultural association and county fairs which receive annual allocations under the provisions of Section 92 of the Agricultural Code. The committee is composed of 1 representative of the Department of Finance who is not an employee of the Fairs and Expositions Division, 1 representative of the Fairs and Exposition Division, 1 member of the Senate, 1 member of the Assembly, and 1 elected representative of the fairs from each of the 7 areas set forth in the act.

The committee is required to classify the fairs after reviewing and considering the statements of operations filed by the fairs and such other available reports, statistics and other information as to the conduct, operation, management of, and other matters relating to the fairs. In making the classifications the committee must take into consideration the following:

(a) The type and class of agricultural, including livestock, industrial and natural resources exhibited and the amount of premiums paid in accordance with the approved premium list of such fair.

(b) Whether the fair is regional in nature, offers a special feature for agriculture, livestock or industry, or is a sectional fair limiting exhibits to the region in which the

fair is held, and such other characteristics and factors as the committee deems necessary.

(c) The ratio of attendance at the fair to the population of the area served by it.

(d) The efficiency of management, including operational procedures, revenue from sources other than the State, quality of exhibits and community interest in such fair.

(e) The extent and nature of interim utilization of fair property as promoted by the fair management.

(f) The need of the fair for money from state sources.

In 1956 the committee designated the following 4 geographical areas for consideration of fairs to be classified as regional fairs:

1. Northern Region
2. San Francisco and Central Coast Region
3. San Joaquin Region
4. Southern Region.

1 outstanding fair from each of regions 2, 3, and 4 was designated as a regional fair. The selection of a regional fair from the 27 district and county fairs in region 1 was deferred as there was no fair sufficiently outstanding on the basis of the data available and the standards established by the committee. 9 of the fairs considered by the committee were designated as special feature fairs on the basis of their predominant exhibits. The remaining 60 fairs were classified as sectional fairs.

In 1957 the committee reviewed the data available for 1956 and 1957 with special emphasis on attendance in relation to population, efficiency of management, and the size and scope of the respective fairs. After review of the data available for each fair individually and in comparison with other fairs, the committee classified the fairs as regional fairs, regional-sectional fairs, sectional fairs No. 1, sectional fairs No. 2, special feature fairs No. 1 and special feature fairs No. 2.

3 fairs were classified as regional fairs on the basis of their outstanding overall ratings within the geographical region. There was no fair sufficiently outstanding in the Northern region to be classified as a regional fair.

10 fairs were classified as regional-sectional fairs.

22 fairs were classified as sectional fairs No. 1 on the basis of their above average overall ratings.

28 fairs were classified as sectional fairs No. 2. This group consisted of fairs with average overall ratings. Some of the fairs were below average because of the geographical location of the fairs in relation to the population concentration within the county or agricultural district. Other fairs were below average because of the limited appeal to persons other than the exhibitors and participants around which all fairs are built.

4 fairs were classified as special feature fairs No. 1 on the basis of their predominant exhibits and their above average overall ratings.

5 fairs were classified as special feature fairs No. 2 on the basis of their predominant exhibits and their average overall ratings.

The review of the data available to the committee in 1956 and 1957 disclosed that some additional detailed data was needed for a more adequate evaluation of the efficiency of management, size and scope of the fair, and need of the fair for money from state sources.

The 1957 classifications were for the 1 year only. The overall rating of any fair on the basis of the data for 1 year may be adversely affected by unfavorable weather, nonrecurring competing attractions or other unavailable factors.

The 1958 classification was not completed in time for inclusion in this budget. The information will be included in the report to be filed by the committee under the provisions of Section 92.5 of the Agricultural Code.

GENERAL ANALYSIS

The 1-A District Agricultural Association was organized in 1931, and conducts 2 livestock shows each year at the Cow Palace, located on the boundary of San Francisco and San Mateo Counties. The Grand National Livestock Exposition featuring livestock, a horse show and a rodeo, is conducted in the fall and the Grand National Junior Livestock Exposition for junior exhibitors is conducted in the spring. The 1958

Grand National Livestock Exposition was conducted from October 31st to November 9th. The 1959 dates are October 30th to November 8th. The 1958 Grand National Junior Livestock Exposition was conducted March 29th to April 2d. The 1959 dates are March 21st to March 25th. The Cow Palace is used and is well suited for larger interim event rentals.

GENERAL ANALYSIS

The present association was organized in 1937 and conducts annual fairs on approximately 81 acres located 2 miles south of Yreka on property leased from Siskiyou County at an annual rental of \$1. The lease expires in September, 2000. The 1958 fair was held from August 15th to August 17th and consisted of

general livestock and other exhibits. 4,754 exhibits entered by 837 exhibitors were judged at the fair. The 1959 fair dates are August 21st to August 23d.

Classified as a Sectional Fair No. 2 in 1957.

1	GENERAL ANALYSIS									
2	The present activities of the association date from 1936. Annual fairs are conducted on the association's fairgrounds, located just outside the City of Red Bluff, leased from the County of Tehama at a rental of \$10 per year. In addition, the association owns 8 acres adjacent to the leased property. The lease expires									
3	in 1998. The 1958 fair was held July 24th to July 26th and consisted of general livestock and other exhibits. 6,237 exhibits entered by 863 exhibitors were judged at the fair. The 1959 fair dates are August 6th to August 8th.									
4	Classified as a Sectional Fair No. 2 in 1957.

1	GENERAL ANALYSIS									
2										
3										
4										
5	The association was organized in 1921. No information on									
6	activities is available prior to 1930. Annual fairs are conducted									
7	on association fairgrounds located in the City of Imperial and									
8	leased from the County of Imperial at an annual rental of \$5.									
9	The lease expires in 1987. The 1958 fair was conducted from									
10	March 1st to March 9th. 5,364 exhibits entered by 1,552 exhib-									
11										
12	itors were judged at the fair. The 1959 fair dates are February									
13	28th to March 8th. In view of the fact that fairs are held early									
14	in the year, the association has adopted a fiscal year ending									
15	June 30th for accounting purposes.									
16	Classified as a Sectional Fair No. 1 in 1957.									
17	Balances at Beginning of Year:									
18	Available for operations-----	\$26,556	\$84,902	\$111,458	\$10,899	\$87,562	\$98,461	\$11,773	\$86,932	\$98,705

1	GENERAL ANALYSIS									
2	Sponsorship of the fair by the County of Butte dates from									
3	1938. Early fairs were held by the Paradise Fair and Apple									
4	Show Association at Paradise, California. Since 1940, fairs									
5	have been held at Gridley on the county's fairgrounds by the									
6	Butte County Fair Association under agreement with the									
7	board of supervisors under the provisions of Section 25905,									
8	Government Code. The 1958 fair was conducted from August									
9	29th to September 1st and consisted of general livestock and									
10	other exhibits. 6,456 exhibits entered by 553 exhibitors were									
11	judged at the fair. The 1959 fair dates are September 3rd									
12	September 6th.									
13	Classified as a Sectional Fair No. 1 in 1957.

GENERAL ANALYSIS										
1	<p>The fair is held under the direction of the board of supervisors who appoint directors to manage the operation of the fair. In the past, these directors have been men from the membership of the Humboldt County Fair Association, an organization founded in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period. Annual fairs are conducted at the county fair-grounds located in the City of Ferndale. The 1958 fair was conducted from August 8th to August 16th and featured generally livestock and other exhibits with particular emphasis on dair cattle and sheep. 5,868 exhibits entered by 979 exhibitors were judged at the fair. The 1959 fair dates are August 10th to August 16th. For many years a feature of the show has been horse racing and pari-mutuel wagering.</p> <p>Classified as a Sectional Fair No. 2 in 1957.</p>

2	GENERAL ANALYSIS									
4	The fair is conducted by the Los Angeles County Fair Association under an agreement with Los Angeles County under the provision of Government Code, Section 25906. The Los Angeles County Fair Association was incorporated as a nonprofit corporation in 1940 and succeeded to the Los Angeles County Fair, a nonprofit stock corporation, at that time. Los Angeles County receives allocations for conducting the fair under the provisions of Section 19622 of the Business and Professions Code and under its agreement with the Los Angeles County Fair Association, reimburses the association for expenditures to the extent of the state appropriations. The Department of Finance does not have any jurisdiction over the activities of the fair other than annual audit examinations by the Audits Division of the department. The 1958 fair was conducted from September 12 to September 28th. The 1959 fair dates are September 18 to October 4th.

1	GENERAL ANALYSIS									
2	Sponsorship of the fair by Riverside County dates from 1938.									
3	Annual fairs are held on the county's fairgrounds located just									
4	outside the city limits of Indio by an advisory committee ap-									
5	pointed by the board of supervisors. The particular feature of									
6	the fair has always been the date exhibits, but has included									
7	livestock and other general exhibits. The 1958 fair was con-									
8	ducted from February 14th to February 23d. 4,456 exhibits									
9	entered by 1,879 exhibitors were judged at the fair. The 1959									
10	fair dates are February 14th to February 23d.									
11	Classified as a Regional-Sectional Fair in 1957.

GENERAL ANALYSIS

The present activities of the fair date from 1937 although private shows were held prior to that date from 1927. Annual fairs are held by the San Benito Saddle Horse Association under a contract with the county under the provisions of Government Code, Section 25905, at Bolado Park located about 8 miles from the City of Hollister and owned by the 33d District Agricultural Association. The 1958 fair was conducted from June 20th to June 22d and, as in the past, featured light horse exhibits and a horse show. The 1959 fair dates are June 19th to June 21st.

Classified as a Special Feature Fair No. 2 in 1957.

1	GENERAL ANALYSIS									
2										
3										
4	Annual fairs are conducted on the county fairgrounds located									
5	at the City of Hayfork by an executive committee appointed by									
6	the county board of supervisors. The County of Trinity has ex-									
7	ecuted a 4-year lease with the Trinity County High School Dis-									
8	trict to use part of the fair facilities for a high school during									
9	the school term. The 1958 fair was conducted from August 15th									
10	to August 17th and consisted of livestock and other exhibits									
11	5,732 exhibits entered by 845 exhibitors were judged at the fair									
12	The 1959 fair dates are August 21st to August 23d.									
13	Classified as a Sectional Fair No. 2 in 1957.

NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

LINE	FUND CONDITION	Actual Fiscal Year Ending April 30, 1957			Actual Fiscal Year Ending April 30, 1958			Proposed Fiscal Year Ending April 30, 1959		
		Association Funds	State Fund	Total	Association Funds	State Fund	Total	Association Funds	State Fund	Total
1	GENERAL ANALYSIS									
2										
3										
4	The National Orange Show was incorporated in 1922 and is									
5	a continuation of a nonprofit association with some modifica-									
6	tions formed in 1910. It appears that the early history of citrus									
7	fairs in San Bernardino can be traced back to 1879. The asso-									
8	ciation receives an allocation under the provisions of Section									
9	19624 of the Business and Professions Code but does not come									
10	under the jurisdiction of the Government Code or other codes									
11	pertaining to state organizations, its actions being governed									
12	by the Corporations Code. The only jurisdiction the Department									
13	of Finance has of the activities of the association pertains to

STATE OF CALIFORNIA

BUDGET SUPPLEMENT

OF AUTHORIZED

SALARIES AND WAGES

CONTAINED IN THE
1959-1960 BUDGET

Submitted by
EDMUND G. BROWN
Governor

to the
CALIFORNIA LEGISLATURE
1959 Regular Session

Titles, Ranges, Merit Adjustments
Authorized Positions

Salaries and Wages

INTRODUCTION

The budgets of each agency carry a summary of positions now authorized and full detail on all proposed new positions. Detailed data on staffing of state agencies, pay-scales, salary and wage payments for existing positions, formerly carried in the budget document, are presented in this supplement. The division has been made in order (1) to provide a clearer picture of the service programs of each agency, (2) to reduce the amount of detail given in the budget document, and (3) to present in this supplement all essential detail on individual positions, pay-rates and salary and wage disbursements.

Positions authorized in each of the operating agencies on July 1, 1958, are listed by official class titles in the following pages. Salary ranges, as outlined below, and total salary and wage requirements in the 1959-60 Fiscal Year for presently authorized positions are given. Data on positions and disbursements in 1957-58 and 1958-59 are also shown for purposes of comparison. A descriptive summary of position titles, position count, salary ranges in state service and for instructional positions in colleges and special schools, and the State's plan for merit salary adjustments with the established ranges is presented below.

Position Titles

In the detailed departmental and agency budgets, positions included in the state civil service have been set forth under the official class titles established by the Personnel Board. Positions exempt from civil service have been listed by their departmental titles, as set forth on the official roster of employees maintained by the State Controller under the central pay installation.

Positions Now Authorized

In general, the positions included under this heading are those which were established as of July 1, 1958, together with those for which funds were provided in the 1958-59 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1957-58 and estimated salary payments during 1958-59 and 1959-60, assuming full-year employment, unless the position is estimated to be established materially later than July 1st. In such cases only the cost from date of establishment is shown and the positions are so noted.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, \$376-505, (b) junior-intermediate clerk, \$243-341.

Continuation during 1959-60 of positions authorized temporarily until June 30, 1959, are included under "Positions Now Authorized." These positions may be identified by an explanation in parentheses indicating the extent of the continuation, such as: (extended to December 31, 1959) or (extended to permanent).

Number of Positions

Filled positions in 1957-58 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions, temporary help, etc.

Authorized positions for 1958-59 and 1959-60 are counted to the nearest tenth of full-time. Full-time positions authorized to start later than July 1st are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

Salary Range

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service, state college, and Maritime Academy classifications, or fixed by statute or by the appointing authority and approved by the Director of Finance for other exempt positions.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee occupying any position in the class.

Under the revised pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than \$10 and none more than \$50. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, \$243-295 indicates a monthly salary range having steps of \$243-\$255-\$268-\$281-\$295. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on page 4.

Schedule of Salary Ranges in Use in the State Service *

Steps						Steps

36	556	584	613	644	676	54	—	—	1400	1450	1500

* Four-step salary ranges, with one step higher minimum, are established for certain classes with recruiting difficulties.

Salary Schedule for Instructional Positions—State Colleges

(Based Upon Salaries Effective November 1, 1958)

RANK a	ACADEMIC		VOCATIONAL
	CLASS I b	CLASS II c	
Assistant	\$4,296- 4,740	—	—
Instructor	4,980- 6,060	\$5,232- 6,360	—
Junior instructor d	4,980- 6,060	5,232- 6,360	\$4,980- 6,060
Assistant professor	5,496- 6,672	5,772- 7,008	—
Intermediate instructor d	5,496- 6,672	5,772- 7,008	5,496- 6,672
Associate professor	6,672- 8,112	7,008- 8,520	—
Senior instructor d	6,672- 8,112	7,008- 8,520	7,008- 8,520
Professor	8,520-10,344	8,940-10,860	—
Principal instructor d	8,520-10,344	8,940-10,860	8,940-10,860

a Budgetary limitations on appointment to each range are 15 percent to 20 percent for instructor or below, 25 percent to 35 percent for assistant professor, 20 percent to 25 percent for associate professor, and 25 percent to 35 percent for professor, of total authorized teaching positions.

b Persons whose academic or professional preparation is equivalent to a college degree.

c Persons whose academic or professional preparation is equivalent to a doctor's degree.

d Instructors and vocational instructors receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

Salary Schedule for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	\$415	\$436	\$458	\$481	\$505
B	436	458	481	505	530
C	458	481	505	530	556
D	481	505	530	556	584
E	505	530	556	584	613
F	530	556	584	613	644

CRITERIA FOR RANGE DETERMINATION

ACADEMIC (Preparation)

VOCATIONAL (Preparation)

Range A Provisional or special credential, without bachelor's degree.

Range B Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.

Range C Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.

Range D Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular secondary credential.

Ranges E and F Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

Three years' experience as journeyman craftsman.

Qualification for special secondary vocational Class A Credential in I and I and PS Education.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard" until he reaches the maximum rate.

All employees in salary ranges with a maximum step of \$341 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by Personnel Board rules. In addition, employees in salary ranges with a maximum step of \$358 to and including \$481 may receive a similar salary adjustment when the predominant recruitment source is from outside state service. This same adjustment may be granted to employees in classes with salary ranges not exceeding \$530 where acute recruitment difficulty is experienced.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, and responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of a group of approximately 225 casually employed trades workers and 615 printing trades employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the State also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the State does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 12 holidays a year. Printing trades employees are provided the eight paid holidays received by their counterparts in private industry.

The salary ranges shown are those in effect on November 1, 1958, and salaries and wages expenditures for both the 1958-59 and 1959-60 Fiscal Years reflect rates of pay then in effect. Statutory salaries are provided for at rates inclusive of enactment by the 1957 Legislature.
